INSTRUCTIONS FOR
Temperature and Humidity Data Loggers (#18607, 18608)

FIRST INSTALL YOUR BATTERY
Before using the data logger you will need to insert the 3.6V 1/2AA battery provided, following the instructions below. Replacement batteries available from www.lascareelectronics.com, PN: BAT 3V6 1/2AA.

THEN INSTALL YOUR SOFTWARE & USB DRIVER
Windows™ 2000/XP/VISTA/7

1. Insert the EL-USB-USB CD into the CD drive of your computer. If the CD does not automatically load, navigate to the CD and double click “Setup”

2. Click “Next”

3. Read the “IMPORTANT NOTICE”, select “I agree” and “Next”

4. Click “Install”
INSTRUCTIONS FOR

Temperature and Humidity Data Loggers (#18607, 18608)

5. Click “Yes”

6. Click “Finish”

7. Click “Install”

8. You have successfully installed the necessary software and driver for your ELUSB data logger. An “EasyLog USB” icon will be placed on your desktop.

YOUR DATA LOGGER IS READY FOR USE

• Ensure the battery is correctly installed.

• Insert the data logger into an available USB port on your PC.

• Double click on the EasyLog USB icon on your Windows™ desktop. This will load the configuration software. Setup the data logger for a new log, download a data logger that has been recording, view previously saved data in graph format and check the current status of the attached data logger (including the serial number).

• When setup is complete, the data logger should be removed from the USB port to begin recording. If you would like advice on how best to use the data logger for a particular application, please contact your nearest Lascar representative.

• Do not leave your data logger in the USB port as this will cause some of the battery capacity to be lost
INSTRUCTIONS FOR

Temperature and Humidity Data Loggers (#18607, 18608)

- Set-up, stop or view previously saved data
- Name your logger and select a sample rate
