

Instructions for the Disposable Ampule Breaker (#10273)

1. Slide the breaker onto the tip of the ampule.

2. Push the breaker down as far as possible.

3. Firmly grip the bottom of the breaker to hold the ampule tight.

4. Snap the top of the breaker to the side.

5. The top of the ampule will break away into the top of the breaker. After breaking, hold the top of the ampule breaker firmly to prevent the ampule-top from falling out of the breaker.

6. Dispose of the breaker with the ampule top.
