

# ASSEMBLY INSTRUCTIONS FOR

## Tacky Roll Mop (#17734)

**Step 1.** Gather one end cap and the tacky roll. Place the end cap in the open end of the tacky roll.

**Step 2.** Slide the axle through the opening in the bottom of the end cap.

**Step 3.** Flip the entire unit over to expose the other open end of the tacky roll.

**Step 4.** Place the remaining end cap in the open end of the tacky roll. Be sure to line up the axle with the hole in the bottom of the end cap.

**Step 5.** Gather the screw and washer. Slide the washer over the screw.

**Step 6.** Place both the screw and washer into the end of the axle.

**Step 7.** Tighten until secure.

**Step 8.** Gather the handle and threaded end cap.

**Step 9.** Tighten the threaded end cap onto the end of the handle.

**Step 10.** Place the lock nut on the end of the axle with the prongs facing up.

**Step 11.** Thread the handle onto the axle.

**Note:** Height adjustment can be made with extension collar. Rotate clockwise to loosen.
